

Mont Blanc Information Pack

Trip Insurance:

All participants must have suitable travel and emergency medical insurance cover to embark on one of our events. This is a condition of participation mentioned in our T&C's. A policy from any insurer with the correct level of cover will be acceptable. Please send us a copy of the policy wording showing specific cover for your trip, along with the policy number for our records.

If you do not have suitable insurance cover, we recommended clients take a policy from **World Nomads**. Their insurance policies have been designed by travellers for travellers, with coverage for more than 150 activities as well as emergency medical, lost luggage, trip cancellation and more. Please use the World Nomads link at Step 3 of the Sign Up page on our website to be taken to your personal policy quote. Make sure you select the Explorer Plan for your trip.

Please email us a copy of your policy certificate for our records.

Flights:

You are responsible for booking your flights at the correct time. We normally check the flight status and details of our participants to monitor whether they are arriving for the event on time. However, you remain fully responsible for monitoring your flight status. PJS takes no responsibility for any customer errors that occur regarding arrival or departure times, dates, or other issues in connection with flight travel.

Please make sure you email us a copy of your flight itinerary as soon as possible, no later than 60 days before departure.

Visa & Passport:

It is your responsibility to fulfil all passport, visa and other immigration requirements applicable to your itinerary. We can provide general information about the passport and visa requirements for your trip, but this is for guidance only.

Although we require your passport details for our Online Registration, your specific passport requirements are your responsibility. Please check your passport is valid for your dates of travel.

Visa is not needed for travelers from most countries, please check with your local French embassy for details.

Vaccinations:

Participants should all have up to date vaccinations for Tetanus, Diphtheria, Hepatitis A, Typhoid. It is optional to have vaccinations for TB, Meningococcal Meningitis, Hepatitis B, Rabies, Cholera. Although yellow fever does not occur in Argentina, an official yellow fever vaccination certificate may be required depending on your itinerary.

Malaria Medication:

No malaria transmission occurs in France. However, bite avoidance is recommended.

Altitude Sickness:

Most people experience some symptoms of Altitude Sickness (AS) at some point on the trek. This will normally be limited to headaches and nausea, as well as finding it a little more difficult to eat, drink and sleep. These symptoms are not severe but will make your journey a little uncomfortable for a short time. To prevent these symptoms as much as possible, we recommend going to your family doctor and asking for a script/prescription for Acetazolamide, usually sold under the trade name Diamox. This is a drug given for Glaucoma symptoms, but is also used for the treatment of AS.

Regular Medication:

Our team are not medical experts. We encourage you to visit your family doctor to discuss your medication requirements.

- Carry medicines (including those bought over the counter) in their correctly labelled original packaging, as issued by the pharmacist
- These should be carried in your hand luggage when travelling on flights
- Consider packing a spare supply of medication in the hold luggage in case of loss of hand luggage
- A letter from the prescriber detailing the medicines with the generic names for the medications can be helpful for border control checks, and in case medicines have to be replaced or medical help is required
- Carry a note from the prescribing physician on letterhead stationery for controlled substances and injection medications
- When taking out an appropriate level of travel health insurance including repatriation, specify cover for any pre-existing illnesses

Pre-Existing Medical Conditions

Please assess for yourself whether you are fit and able to take on this challenge. Please review this detailed Information Pack, our website and itinerary to get a better idea of what is involved. Please speak to your doctor or specialist if you have any concerns about taking

part. If you suffer from a severe allergy, you are required to contact us to discuss any requirements. If you think that there are things we can do to make the adventure more accessible/comfortable for you, it is your responsibility to let us know, and we will then let you know if we can accommodate your request.

Whilst we will do our best to put in place appropriate measures, we cannot guarantee that this will be possible.

Medical Support

First Aid qualified staff will be provided with the medical details that you give on your booking form but please note that they are on the trip to support with medical matters related to the trip environment and terrain itself, i.e. heat/cold, high altitude and so on. They will deal with any incidents and accidents (cuts, sprains, breaks and so on). They are not intended to continue any ongoing specialist medical care that you receive for pre-existing medical conditions and should not be assumed to have any professional experience of your specific medical condition.

If you have any specific needs around pre-existing medical conditions, you should discuss with your family doctor or specialist in advance and can discuss any advice given by them with the trip leader.

Kit List:

Good quality, durable kit could mean the difference between a fantastic challenge experience and an uncomfortable one. For this challenge, waterproof, well-worn in boots will be indispensable, particularly coupled with some really good quality walking socks. The benefits of a comfortable daypack cannot be underestimated, so make sure that you get one fitted in-store and train with this. Other essentials are high quality waterproof and windproof jackets and trousers, technical/wicking t-shirts rather than cotton shirts, and a down jacket for the evenings in camp and your summit day/night.

Everything listed on the Kit List is essential.

Please see a full copy of the Kit List at the end of this Information Pack

Electric Power:

Electric power outlets are available for charging in the Hut.

Sometimes we have a large solar charging panel in our kit and can be used when the sun is strong. However it is best you also bring your own.

Assuming you will be using your mobile phones to take photos, if you turn on Airplane Mode and turn off Bluetooth, your battery should approx. 2 days.

Please note that batteries will discharge quicker in the cold, so should be stored overnight inside a bag, sock or jacket.

Communication:

In Chamonix, local SIM cards can be purchased. The local SIM cards will have intermittent connection along the first part of the trail.

WiFi is available at the Hut, for an extra cost (unless included in our package).

We also carry a Satellite Phone for emergency use. It is only switched on when it needs to be used so cannot be used for incoming calls.

However, clients can use it to make outgoing international calls whenever they would like, at a cost of \$5 per minute.

Emergency Contact Number:

We have an Emergency Contact number for you to give to your nearest & dearest, should there be an extreme emergency whereby you need to be contacted during your trip.

This number is for **SMS** or **WhatsApp** messages **ONLY** and must only be used in extreme emergencies:

+972 584100182

Local Staff Tips:

We have a standard recommendation for staff tips. This amount is based on the total number of crew members and their job titles.

The recommended tip amount will be given to you before departure.

You should bring this cash to the trail. It will be collected from everyone on the final night, and then present to the whole crew on the following morning.

What to Wear for Your Outbound Flights:

If your checked in luggage gets lost/delayed, it could take a couple of days to catch you up. You won't be able to start your trek without your boots and essential clothes, so wearing or carrying them for the flight is advisable.

- Walking boots
- Walking socks
- Trekking trousers/pants
- Base layer top

**Luggage:**

Only soft sided duffle bags, holdalls and rucksack are allowed on the trail. Hard suitcases or soft bags with wheels will not be accepted.

Please bring a bag to store any items you don't need to take to the mountain such as clean clothes for travel etc. This bag will be stored securely at the hotel in Mendoza the day we leave for the trail until we arrive back after the hike. Valuables can be stored securely. However please try to limit the valuable items you bring. Please note that PJSC do not accept responsibility for any stored items.

The Climb:

To do this trip you will need to be physically fit, with a head for heights and technically coordinated. This is a tough challenge and even though you do not need previous alpine climbing, you are attempting to climb the highest peak in the Alps and need to be suitably prepared. It is physically demanding with a summit day of 12-14hrs, most of which is at altitude. In addition, it contains the need for scrambling to 'easy' climbing with and without crampons, the ascent and descent of steep snow slopes as well the traverse of exposed ridges. The preparation days are usually of 6-8hrs duration

Training

This challenge is graded C3 - DIFFICULT:

These climbs will involve resistance to extreme weather conditions over extended periods of time. You may need to carry heavy loads over multiple days.

These challenges will extra cardio-vascular training to attain the level of fitness required. You will need previous experience of hill-walking to participate in this climb.

Don't forget that the temperature and high altitude make this a more demanding hike.

While strength is important, endurance training should be your primary focus. Walking up hills and climbing stairs are both ways to condition your lower body. Begin slowly, without the weight of a pack, eventually adding weight as you increase your training pace. Take long hikes (6-8 hours) with a weighted pack, up and down hills or mountains (weigh your pack with water containers and pour out the water before your descent to minimize knee stress).

Other Helpful Info:

- Please check off all your kit against the Kit List before packing, and make sure you have everything
- Running/workout clothes are NOT thermals. Proper thermal layers are essential. Please don't underestimate how cold a mountain can get. You will not regret investing in proper thermal layers
- You will need at least 5 pairs of thermal trekking socks. One pair will be kept as your 'summit socks' and not worn before, one pair will be your evening/sleeping socks. That will leave 3 more pairs to wear. Sports socks or regular everyday socks are not appropriate for hiking
- Make sure to 'test' your socks with your boots. If your 'summit socks' are thicker than others, it's very important to try these with your boots to make sure your feet will still be comfortable
- Don't forget to bring earplugs as the Huts can sometimes be noisy when you want to sleep
- Don't drink tap water anywhere. Use bottled water to brush teeth
- Drinking water alone on the trail will not hydrate you enough, make sure you have some electrolyte tablet to use in your water, such as GU, NUUN, ZERO, SIS. The sodium and minerals contained in these electrolytes will help keep you hydrated when you drink
- Bring a variety of snacks. Trail mix, trail bars, chocolate & hard candy. A mixture of sweet and savoury is good.
- Duracell batteries generally perform better in extreme cold temperatures than other brands

Kit List

RUCKSACKS AND BAGS

- Day Pack 30lt – 40lt
- Duffle bag 70lt – 90lt

SLEEPING

- 4 season sleeping bag
- Sleeping bag liner (optional)

FOOTWEAR

- Walking boots with ankle protection
- Thermal Hiking socks
- Sturdy comfortable shoe

EQUIPMENT

- LED Head Torch (plus spare batteries)
- 3lt Water Bladder
- 2 x 1lt Water Bottles (Nalgene)
- Sunglasses
- Daily Snacks (tracker bars, dried fruit, chocolate, nuts)
- Walking poles

CLOTHING

- Waterproof Jacket
- Waterproof Pants/Trousers
- Down Summit Jacket - 600/700 down fill
- Windproof softshell jacket
- Lightweight fleece tops
- Wicking long sleeve t-shirt
- Trekking Pants / Trousers (not jeans)
- Thermal long johns & Thermal long sleeve top
(Varying thermal qualities - Light weight, Medium weight & Heavy weight)
- Underwear (light and wicking)
- Neck Buff
- Sun Hat
- Thermal Hat
- Thin Liner Gloves
- Insulated gloves/mittens
- Casual clothes and personal items

TOILETRIES

- Toothbrush & Toothpaste
- Antibacterial Liquid Soap
- Baby wipes
- Antibacterial Wipes
- Lip Sun Protection Stick
- Deodorant
- Insect repellent containing DEET
- Sun Cream/ Protection (min SPF30)

PERSONAL ITEMS

- Camera
- Contact lenses (plus spare glasses)
- Ear Plugs
- Small First Aid Kit
- Pain killers
- Band Aids
- Compeed blister pads
- Antiseptic wipes
- Diarrhoea tablets
- Electrolyte Tablets
- Your own medication
- Knee support (if you normally need and use)

DOCUMENTS

- Passport
(Make sure you have at least 6 months left on your passport expiry date)
- Photocopy of passport
(Keep a copy at home and a copy in your travel bag for emergencies)
- Travel insurance
(Suitable insurance available from World Nomads, via the PJS Challenges website)
- Visa (please check in-country requirements)
- Flight Tickets (e-tickets)
- Cash (US Dollars)
- Credit card

Items to be rented locally:

- Harness, locking karabiner and belay device
- 2 prussik loops + karabiner
- 120cm sling + locking karabiner
- Climbing helmet
- Crampons
- Rigid insulated mountaineering boots
- Ice axe
