

Tibetan Bike Ride Information Pack

Trip Insurance:

All participants must have suitable travel and emergency medical insurance cover to embark on one of our events. This is a condition of participation mentioned in our T&C's. A policy from any insurer with the correct level of cover will be acceptable. Please send us a copy of the policy wording showing specific cover for your trip, along with the policy number for our records.

If you do not have suitable insurance cover, we recommended clients take a policy from **World Nomads**. Their insurance policies have been designed by travellers for travellers, with coverage for more than 150 activities as well as emergency medical, lost luggage, trip cancellation and more. Please use the World Nomads link at Step 3 of the Sign Up page on our website to be taken to your personal policy quote. Make sure you select the Explorer Plan for your trip.

Please email us a copy of your policy certificate for our records.

Flights:

You are responsible for booking your flights at the correct time. We normally check the flight status and details of our participants to monitor whether they are arriving for the event on time. However, you remain fully responsible for monitoring your flight status. PJS takes no responsibility for any customer errors that occur regarding arrival or departure times, dates, or other issues in connection with flight travel.

Please make sure you email us a copy of your flight itinerary as soon as possible, no later than 60 days before departure.

Visa & Passport:

It is your responsibility to fulfil all passport, visa and other immigration requirements applicable to your itinerary. We can provide general information about the passport and visa requirements for your trip, but this is for guidance only. Although we require your passport details for our Online Registration, your specific passport requirements are your responsibility. Please check your passport is valid for your dates of travel.

Tibet entry permit is mandatory for international travelers to enter Tibet in addition to a Chinese visa. Every international tourist must apply for a Tibet Travel Permit to board an aircraft or take a train heading towards Lhasa.

Entering Tibet through Nepal

- We will collect all your travel papers and submit the Tibet travel permit application to the Tibet Tourism Bureau (TTB). Then, TTB will grant the permission and submit the visa invitation letter to the Chinese Embassy in Kathmandu within 8-9 days.
- You must arrive in Kathmandu, Nepal, at least 3 days before entering Tibet. You must complete the Group Visa application form and send the original passport, a personal photo, and the Chinese Group Visa cost to our agent in Kathmandu, who will send your Chinese Group Visa to your accommodation in Kathmandu.
- Finally, after completing all the required formalities, you will enter Tibet using the Chinese Group Visa. Your Tibetan guide will keep your Tibet Travel Permit ready when you reach Lhasa airport.

Vaccinations:

Participants should all have up to date vaccinations for Tetanus, Diphtheria, Hepatitis A, Typhoid. It is optional to have vaccinations for TB, Meningococcal Meningitis, Hepatitis B, Rabies, Cholera.

Although yellow fever does not occur in Nepal, an official yellow fever vaccination certificate may be required depending on your itinerary.

Malaria Medication:

No malaria transmission occurs in Tibet, and all the main Himalayan routes are free of malaria, but documented transmission persists in some areas of the country.

Regular Medication:

Our team are not medical experts. We encourage you to visit your family doctor to discuss your medication requirements.

- Carry medicines (including those bought over the counter) in their correctly labelled original packaging, as issued by the pharmacist
- These should be carried in your hand luggage when travelling on flights
- Consider packing a spare supply of medication in the hold luggage in case of loss of hand luggage
- A letter from the prescriber detailing the medicines with the generic names for the medications can be helpful for border control checks, and in case medicines have to be replaced or medical help is required
- Carry a note from the prescribing physician on letterhead stationery for controlled substances and injection medications
- When taking out an appropriate level of travel health insurance including repatriation, specify cover for any pre-existing illnesses

Pre-Existing Medical Conditions

Please assess for yourself whether you are fit and able to take on this challenge. Please review this detailed Information Pack, our website and itinerary to get a better idea of what is involved. Please speak to your doctor or specialist if you have any concerns about taking part. If you suffer from a severe allergy, you are required to contact us to discuss any requirements. If you think that there are things we can do to make the adventure more accessible/comfortable for you, it is your responsibility to let us know, and we will then let you know if we can accommodate your request.

Whilst we will do our best to put in place appropriate measures, we cannot guarantee that this will be possible.

Medical Support

First Aid qualified staff will be provided with the medical details that you give on your booking form but please note that they are on the trip to support with medical matters related to the trip environment and terrain itself, i.e. heat/cold, high altitude and so on. They will deal with any incidents and accidents (cuts, sprains, breaks and so on). They are not intended to continue any ongoing specialist medical care that you receive for pre-existing medical conditions and should not be assumed to have any professional experience of your specific medical condition.

If you have any specific needs around pre-existing medical conditions, you should discuss with your family doctor or specialist in advance and can discuss any advice given by them with the trip leader.

Fitness

Fitness Training is definitely required. It is important that you work specifically on your stamina, leg and joint strength, and balance to get as much out of the challenge as possible. Being physically prepared for the climate and conditions of your destination will ensure that you are less likely to get ill. You will be exercising constantly for a number of days, the heat and distance will be your biggest challenge. You need to be able to sustain around 6-8 hours of cycling for 7 continuous days

You should be focusing on your fitness as soon as possible to build it up steadily. This does not need to involve lifting heavy weights or running marathons. However, it is very important that you start a realistic exercise programme that will help you prepare for your ride and one that you will stick to.

Kit List:

Good quality, durable kit could mean the difference between a fantastic experience and an uncomfortable one. For this challenge, a helmet is compulsory, and comfortable footwear

for your cycle will be indispensable, particularly coupled with some good quality padded cycling shorts. The benefits of a comfortable day sack cannot be underestimated, so make sure that you train with this. Other essentials are a high quality, gore-tex waterproof jacket and technical/Dry fit t-shirts rather than cotton shirts. Cycling gloves, and a cotton buff are also highly recommended to protect you from the dust. A full kit list for this challenge can be found at the end of the Information Pack

Luggage:

Each cycling day, your personal kit will be transported to the next stop by a support vehicle. You will carry a daypack for your daily needs such as sun cream, lunch, water, camera and lightweight waterproofs. We will do everything to provide adequate safety for the group and security for your possessions. The general rule is that if you don't need it, don't bring it. This includes jewellery, necklaces, rings and even watches. Carry your passport with you and make sure you have a photocopy of your documents (travel insurance, passport, visa etc.) in case they get lost or damaged. Please bring a bag to store any items you don't need to take to the mountain such as clean clothes for travel etc. This bag will be stored securely at the Hotel/Riad the day we leave for the trip until we arrive back. Valuables can be stored securely. However please try to limit the valuable items you bring. Please note that PJSC do not accept responsibility for any stored items.

What to Wear for Your Outbound Flights:

If your checked in luggage gets lost/delayed, it could take a couple of days to catch you up. We advise that you wear your cycling footwear on the plane and take a set of cycling clothing (especially your jacket) in your hand luggage. In the unlikely event that your checked bag should go missing, you will be able to begin the challenge until you are reunited with your luggage.

Bikes:

Bike rentals are not included in our trip cost.

Electric Power:

Assuming you will be using your mobile phones to take photos, if you turn on Airplane Mode and turn off Bluetooth, your battery should last a couple of days from one full charge. Please note that batteries will discharge quicker in the cold, so should be stored overnight inside a bag, sock or jacket. A 20,000mah battery pack should be capable of charging your phone plenty of times.

Communication:

Wi-Fi is available at most accommodations however there will be little to no phone reception on the ride you should assume that there won't be connection. Even known areas of connection are subject to weather and cloud cover.

The PJS Leader may carry a Satellite Phone for emergency use. It is only switched on when it needs to be used so cannot be used for incoming calls. However, clients can use it to make outgoing international calls whenever they would like, at a cost of \$5 per minute.

Emergency Contact Number:

We have an Emergency Contact number for you to give to your nearest & dearest, should there be an extreme emergency whereby you need to be contacted during your trip.

This number is for **SMS** or **WhatsApp** messages **ONLY** and must only be used in extreme emergencies: **+972 584100182**

Local Staff Tips:

We have a standard recommendation for staff tips. This amount is based on the total number of crew members and their job titles. We will notify you of the recommended tip amount for your trip approx. two weeks before departure. You should bring this cash to the mountain. It will be collected from everyone on the final night, and then present to the whole crew on the following morning. As we need to split the cash into each crew section, please try to bring small notes, such as \$20, \$10, \$5 (maybe a few \$1's)

- No more than 2x \$50
- Preferably no \$100's
- Dollar bills must NOT be older than from 2010
- Old worn \$ bills or \$ bills with tears are not accepted, clean \$ bills only

Other Helpful Info:

- Please check off all your kit against the Kit List before packing, and make sure you have everything
- Pack clothes into dry sacks (or other waterproof bags) inside your kit bag in order to help protect against wet, damp and moisture and to make it easier to find what you're looking
- Don't forget to bring earplugs as the accommodation can sometimes be noisy when you want to sleep

- Keeping a 'pee bottle' inside your tent at night saves going out in the cold in the middle of the night. Women can use a plastic Tupperware box & lid. PLEASE MARK THE BOTTLE CLEARLY
- Don't drink tap water at the lodge or anywhere else. Use bottled water to brush teeth
- Drinking water alone on the trail will not hydrate you enough, make sure you have some electrolyte tablet to use in your water, such as GU, NUUN, ZERO, SIS. The sodium and minerals contained in these electrolytes will help keep you hydrated when you drink
- Bring a variety of snacks. Trail mix, trail bars, chocolate & hard candy. A mixture of sweet and savoury is good.
- Duracell batteries generally perform better in extreme cold temperatures than other brands

KIT LIST

RUCKSACKS AND BAGS

- Daypack suitable for cycling 15lt – 25lt
- Handlebar bag
- Duffle bag 50lt – 70lt
- Hotel/Riad bag
- Dry Sacks
